

Guest Lecture organised in the School of Architecture

A Guest lecture was organized by **School of Architecture, BBD University** on the Topic "**Sustainable Smart Infrastructure**", by renowned architects **Prof. Charanjit Shah** and **Ar. Dilbir Singh Bhui** on 5th of September, 2017.

He has spearheaded some landmark sustainable projects in India including Swami Vivekananda Airport at Raipur, India and Kamraj Airport Terminal at Chennai, India.

Ar. Dilbir Singh Bhui, is a well known practicing architect . He had done numerous splendid projects for which he received various commendations from the govt. for achieving excellence in assigned works .

This Lecture helped in enhancing knowledge related to sustainable approach towards smart infrastructure. It was held with the initiation of architecture faculty Ar. Mohit Sachan which lead to a inforamatory lecture session.

All students actively participated in this technical session as it included all the adressive topics which are very helpfull in their academics and will be further helpfull in their architecture profession.
