

## **Guest Lecture in Mathematics Department**

**October 24, 2017.** Today Dr. Pankaj Mathur, Professor, Department of Mathematics & Astronomy, University of Lucknow delivered a Guest Lecture in the Department of Mathematics & Computer Science, School of Applied Sciences on the topic "Some Applications of Mathematics in Real Life Problems". In his lecture, Dr. Mathur talked about diverse applications of mathematics in many real life problems. He mentioned about many latest technology that have become popular today and users friendly. All such technological reforms could have been possible with the applications of mathematics only. Dr. Mathur used the example such as latest forms of computers, signal transmissions in many devices for various purposes, etc.

The lecture was attended by students and faculty members of the School of Applied Sciences. The talk was highly motivational and was appreciated by all participants.
