

## Exhibition in school of Architecture

An exhibition of **B.Arch 2nd year** students work was held at architecture department on **6th September, 2017** which was organized by the students under the guidance of their respective faculty members. The represented work was based on "**STRUCTURAL SYSTEM**" which defines all the systems of structure.

it was a very interactive session which came with commendable works of students through models and sheets for discussion among students and jury members.
