## **Course Structure and Syllabus of Bachelor of Business Administration (Professional) Jointly with CIMA, UK**

**Effective from Batch 2019-20**

## **1 Course Curriculum of Bachelor of Business Administration (Professional)**

### **Version Control**

Version	3.0
Effective from	1 <sup>st</sup> July, 2019

**Approved by Board of Studies of School of Management on 30<sup>th</sup> May 2019**

**BBA (Professional)****Jointly with CIMA, UK**

The BBA (P) course in association with CIMA, UK is an undergraduate course which aims at providing inputs to the students relevant to business, industry and trade and works as an advantage to the students by giving them an International perspective. This course enables them to be able to function in different organizations and face the challenges arising there from. The course not only aims at providing knowledge and skills in different areas of management and accounting, but also provides inputs necessary for the overall development of the personality of the students.

Broadly, the course is of three years divided across Six Semesters. The structure of the Course is designed in a way that along with the Management studies, the students are prepared to appear for the CIMA Certifications. The papers for CIMA Certifications have been incorporated in the course curriculum in a way that during the duration of this course, the student can take the CIMA Certification exams for Certificate in Business Accounting, Diploma in Management Accounting and Advanced Diploma in Management Accounting.

Right from the beginning, the focus is on providing relevant inputs through case discussion/analysis, simulation games, note plays etc. keeping in mind the current industry scenario and the need of the hour. Proper emphasis has been given on theory and practical sessions so that the students are groomed with the right exposure for the practicalities.

The course structure also lays emphasis on field study. The third, fourth and fifth semester of the course require students to take up field study on papers taught during the respective semester. This is essentially done to give the students a hands-on practical exposure about the Management concepts and enables them to apply the acquired knowledge. At the end of these semesters the students are required to submit a 25 page report on the study conducted. They are also expected to make a brief presentation of the report. The evaluations will be based the report and presentation.

The sixth semester i.e., Final semester of the course comprises of Industrial Internship for the students. This will be an extensive internship aimed to give On Job Training to students. The entire course structure is designed in such a manner that it enables the students to be able to apply their knowledge and expertise and simultaneously get Industry exposure.

In addition, in every semester, students will be assessed out of 50 marks based on co-curricular activities, initiatives and general discipline as part of General Proficiency.

**Eligibility Criteria:**

60% or equivalent in plus 2 or equivalent with Mathematics/Business Mathematics as one paper; 5% relaxation for SC/ST students

**Field Study:**

The Field Study will be based on the course content of the respective semester on a problem/topic to be assigned by the School of Management under the supervision of a core faculty member of the department. It is meant to be completed in 10-14 working days.

The student will submit three copies of the Field Study report to the Dean/Head of the BBA (P) program. The number of pages in the report will be 50 or more. The report should be typed in A-4 size paper.

**Industry Project Report:**

In sixth semester, candidates will have to submit an Industry Project Report on a problem/topic (from the Specialization area) to be assigned by the School of Management under the supervision of a core faculty member of the department.

The report will contain the objectives and scope of the study. Research methodology, use, importance of the study, analysis of data collected, conclusions and recommendations. It will contain program certifying the authenticity of the report shall be attached therewith. The student will submit three hard bound copies of the report to the Dean/Head of the BBA (P) program. The number of pages in the report will be 75 or more. The report should be typed in A-4 size paper.

**Course Title: Management Accounting I****Course Code: BBAP3101****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: <ul style="list-style-type: none"> <li>❖ Concept of Management Accounting.</li> <li>❖ Classification of cost.</li> <li>❖ Budgetary Control and Variance Analysis.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Understand the concept and components of Management Accounting.</li> <li>2. Apply the various cost classification concepts.</li> <li>3. Identify cost behavior and use this information in a range of decisions.</li> <li>4. Calculate breakeven point and its related quantities.</li> <li>5. Describe the features of different budgeting systems and calculate budget variances.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I: Introduction</b> Concept of Management Accounting: Need, purpose and role of management accounting. Role of CIMA as a professional body for management accounting. Classification of cost in relation to output, activity level and cost Behavior, Activity based Costing, features of digital costing.		<b>30</b>	<b>1</b>
<b>Module II: Absorption Costing and Marginal Costing</b> Prepare overhead cost statement, calculation of total cost and marginal cost. Difference between Marginal and Absorption profit. Apply cost information in pricing decision.		<b>30</b>	<b>1</b>
<b>Module III: Budgeting and Control</b> Need for budgeting, forecasting and planning. Prepare functional budgets, budget statements: master budget including statement of profit and loss, conduct what if analysis in budgeting, financial position and cash flow. Technologies available for improving budgeting. Human dimensions of budgeting. Importance of cash budget, fixed and flexible budget and calculate budget variance. Budgetary control concept.		<b>30</b>	<b>1</b>

<b>Module IV: Variance Analysis</b> Principle of standard costing, standard costs. Calculate variance for material, labour, overhead, sales price and sales volume. The use of variance to reconcile the budgeted and actual profit that has been calculated using marginal costing. Interpretation of variances.	<b>30</b>	<b>1</b>
<b>Suggested Readings:</b> <ol style="list-style-type: none"><li>1. Fundamentals of Management Accounting BA2. Kaplan Publications.</li><li>2. Maheshwari, S.N., Principles of Management Accounting, Sultan Chand &amp; Sons, 2003 Fourteenth Edition.</li><li>3. Khan &amp; Jain, Management Accounting, Tata McGraw Hill Publishing House, 2002 Third Edition.</li><li>4. Arora, M.N., Cost and Management Accounting, Himalaya Publication, 2012 Tenth Edition</li></ol>		

**Course Title: Business Economics I****Course Code: BBAP3102****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: <ul style="list-style-type: none"> <li>❖ Relevance and application of economic theories and concepts in managerial decision making.</li> <li>❖ The effect of macro-environment and organizational goals on the decision making of an organization.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Describe the scope of economics and business economics and become familiar to objectives of firm.</li> <li>2. Identify demand and the factors governing it and the methods of demand analysis and demand forecasting.</li> <li>3. Illustrate cost and its concepts and how they are classified on different basis.</li> <li>4. Describe about different market structure and the pricing decisions according to them.</li> <li>5. Define profit maximization and policies made and planning done to achieve the goal of profit maximization with customer satisfaction.</li> <li>6. Illustrate the goals and decision making process of firms.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Introduction to Managerial Economics, Demand Analysis and Cost Analysis</b> Introduction to Managerial Economics: Definition & Scope of Managerial Economics, Role & Responsibility of a managerial economist, Objectives of a firm. Demand Analysis: Elasticity of Demands: Concept, Types, Measurement of elasticity of demand, Implications in decision making, Demand forecasting: Meaning & Significance, Characteristics of good forecasting. Cost Analysis: Cost concept, Classification of costs, Cost-output relationships. Economies & diseconomies of scale. Cost control and reduction, Pricing decisions under different market structures (Perfect		<b>30</b>	<b>1</b>

Competition, monopoly, monopolistic, oligopoly), Price determination, Managerial implications & Methods.		
<b>Module II : Macroeconomic context of Organization</b> Macroeconomic context of Organization (Global Context): Concept of Globalization, Consequences for businesses and national economies, Influence on economic development & Impact on Business, Global trade & Development, Role of institutions promoting Global trade.	<b>30</b>	<b>1</b>
<b>Module III : Goals and decisions of Organizations</b> Goals and decisions of Organizations: Economic goals of stakeholders, Shareholder's wealth: Variables affecting it and impact in Management Decision making. Identifying stakeholders and their likely impact on goals of organization, Effect on management decisions, Distinguish between the potential objectives of management and those of shareholders, and the effects of this principal-agent problem on decisions concerning price, output and growth of the firm.	<b>30</b>	<b>1</b>
<b>Module IV: Industry Competition, Cost Behaviour &amp; Industry Structure</b> Industry Competition, Cost behaviour & Industry structure: Behaviour of a firm's unit costs in the short run and long run, Potential effects of long run cost behavior on prices, The size of the organization & the number of competitors in the industry. Impact of prices and competition on e-business and globalization, Profit maximization. Theory of Production and production function with two variable input.	<b>30</b>	<b>1</b>
<b>Suggested Readings:</b> <ol style="list-style-type: none"> <li>1. Dwivedi, D.N., Managerial Economics, Vikas Publishing House, 2003.</li> <li>2. Chaturvedi, D.D. and S. L. Gupta, Business Economics, Brijwasi Publishers, 2003.</li> <li>3. Mehta, P.L., Managerial Economics, Sultan Chand &amp; Sons., 2003.</li> <li>4. Koutsoyiannis, A., Modern Micro Economics, Macmillan Press Ltd., 2003.</li> <li>5. Salvator, Dominick, Managerial Economics, McGraw-Hill Book Company.</li> </ol>		

**Course Title: Business Mathematics****Course Code: BBAP3103****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: ❖ The application of mathematics in the business. ❖ The analysis of data and building relationship among variables.		
<b>LEARNING OUTCOMES:</b>	The students should be able to: 1. Identify the number of ways in which data can be selected and arranged. 2. Calculate and identify the progressions. 3. Present and analyze the business data. 4. Express quantitatively the degree and direction of the co-variation or association between two variables. 5. Use simple linear regression for building models of business data. 6. Understand fundamentals of probability and various probability rules that help to measure uncertainty. 7. Perform several analysis with respect to business decisions involving uncertainty.	<b>No. of Hours</b>	<b>No. of Credits</b>
<p><b>Module I : Principle of Counting and Mathematics Induction</b></p> <p>Permutations and Combination: Concept of factorial, Principle of Counting, Permutation with restriction, Circular Permutation and Combination with restriction.</p> <p>Mathematics Induction Principle. Sequences &amp; Series: A.P., G.P. and H.P. Simple and compound interest, Present value using formulae and CIMA tables, Annuities and perpetuities, Interpretation of NPV and IRR.</p>		<b>30</b>	<b>1</b>
<p><b>Module II : Analysis of Data</b></p> <p>Analysis of Data: Definition, Importance &amp; Limitation, Collection of data and formation of frequency distribution, Graphic presentation of frequency distribution: Graphics, Bars, Histogram. Measures of central tendency: Mean Median and Mode. Partition values: Quartiles, Deciles and Percentiles.</p>		<b>30</b>	<b>1</b>

Measures of variation: Range, IQR, Quartile deviation, Standard deviation and Lorenz Curve.		
<p><b>Module III : Correlation Analysis &amp; Regression</b></p> <p>Correlation Analysis: Correlation Coefficient, Assumptions of correlation analysis, Coefficients of determination and correlation. Measurement of correlation: Karl Person's Methods, Spearman's rank correlation. Concurrent deviation of the correlation coefficient, Pitfalls and limitations associated with regression and correlation analysis, Real world application using IT tools.</p> <p>Correlation &amp; Regression: Scatter Diagram, Correlation Coefficient and the coefficient of determination between two variables, Regression equation between two variables, Dependent variable, and Independent variable. Trends in time series: Graphs, Moving averages and Linear regressions.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Probability</b></p> <p>Probability: Probability and its relationship with proportion and percentage, Simple &amp; Conditional Probability, Addition and multiplication rules of probability theory. Use of expected value tables in decision making, Limitations of expected values. Concepts of risk and uncertainty. Venn diagrams.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Thukral, J.K., Business Mathematics, BV Publications - latest edition.</li> <li>2. Sancheti and Kapoor, Business Mathematics, latest edition.</li> <li>3. Chang, Business Mathematics, latest edition.</li> <li>4. Soni, R.S., Business Mathematics, latest edition.</li> <li>5. Bhardwaj, R.S., Mathematics for Economics and Business, Excel Books, 2000.</li> <li>6. Raghavachari, M., Mathematics for Management, Tata McGraw Hill, 2004.</li> </ol>		

**Course Title: Computer Fundamentals****Course Code: BBAP3104****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: <ul style="list-style-type: none"> <li>❖ Basic functioning of a computer.</li> <li>❖ Different operating systems.</li> <li>❖ The concept of networking.</li> </ul>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Study the evolution of computers.</li> <li>2. Describe the complete details of computer components.</li> <li>3. Explain the different types of operating systems.</li> <li>4. Explain the networking concepts.</li> <li>5. Use various tools of Microsoft Office.</li> <li>6. Illustrate the importance and use of computer fundamentals.</li> </ol>		
<p><b>Module I : Basics of Computer, its evolution and Number System</b></p> <p>Basics of Computer and its evolution: Evolution of computer, Data, Instruction and Information, Characteristics of computers, Various fields of application of computers, Various fields of computer: Hardware, Software, Human ware and Firmware, Advantages and Limitations of computer, Block diagram of computer, Function of different units of computer, Classification of computers On the basis of technology: Digital, Analog and Hybrid, On the basis of processing speed and storage capacity: Micro, Mini, mainframe and Super, On the basis of Purpose: General &amp; Special. Different Generation of computers I to V, Types of software: System and Application, Compiler and Interpreter, Generation of language: Machine Level, Assembly, High Level, 4GL.</p> <p>Number System: Decimal, Binary, Octal and hexadecimal and their inter conversion through Fixed Point Only. Binary Arithmetic: Addition, Subtraction, Multiplication and Division.</p>		<b>30</b>	<b>1</b>
<p><b>Module II : Input and Output devices and Computer Memory</b></p> <p>Input and Output Devices: Keyboard, Mouse, Joystick, Digitizer, Scanner, MICR, OCR, OMR, Light Pen, Touch Screen, Bar Code Reader, Voice Input Device, Monitor and it's types: VGA, SVGA and XGA, Printer and its types: Impact and Non-Impact with example, Plotter.</p>		<b>30</b>	<b>1</b>

Primary Memory: ROM and its types namely, PROM, EPROM, EEPROM, RAM. Secondary memory: SASD and DASD Concept. Magnetic Disks: Floppy disks, Hard disks, Magnetic Tape. Optical disks: CD ROM and its types namely, CD ROM, CD ROM-R, CD ROM-EO, DVD ROM, Flash Memory.		
<p><b>Module III : Operating System Concept, GUI and File Manipulation</b></p> <p>Operating System Concept: Introduction to operating system, Function of OS, Types of operating systems, Booting Procedure, Start-up sequence, Details of basic system configuration, Important terms like Directory, File, Volume, Label, Drive name, etc.</p> <p>Introduction to GUI using Windows Operating System: All Directory Manipulation, Creating directory, Sub directory, Renaming, Coping and Deleting the directory.</p> <p>File Manipulation: Creating a file, Deleting, Copying, Renaming a file.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Concept of Data Communication and Networking</b></p> <p>Concept of Data Communication and Networking: Networking Concepts, Types of Networking: LAN, MAN and WAN, Communication Media, Mode of Transmission : Simplex, Half Duplex, Full Duplex, Analog and Digital Transmission, Synchronous and Asynchronous Transmission, Different Topologies. Introduction to Spread Sheets, Microsoft Excel type spreadsheet, Advantages and disadvantages of spreadsheet software, when compared to manual analysis and other types of software application packages. Use of spreadsheet software in budgeting, forecasting, reporting performance, variance analysis, what-if analysis, discounted cash flow calculations.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. LeonandLeon,IntroductiontoInformationTechnology,Le onTechWorld.</li> <li>2. MicrosoftOffice-2000Complete-BPBPublication.</li> <li>3. Sinha,Kr.PradeepandPreetiSinha,FoundationsofComputing,BPB.</li> <li>4. Jain,V.K.,Computers and Beginner.</li> </ol>		

**Course Title: Financial Accounting****Course Code: BBAP3105****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with <ul style="list-style-type: none"> <li>❖ The concept of financial accounting.</li> <li>❖ The preparation of final accounts.</li> <li>❖ The usage of final accounts as a control tool.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Define the need for accounting records.</li> <li>2. Identify user groups and the characteristics of financial statements.</li> <li>3. Explain the approaches for creating accounting standards.</li> <li>4. Explain capital and revenue, cash and profit, income and expenditure, assets and liabilities.</li> <li>5. Identify alternative methods of valuing assets, and their impact on profit measures and statement of financial position values.</li> <li>6. Understand the role of accounting standards in preparing financial statements.</li> <li>7. Evaluate the control of Accounting Systems with the uses of Financial statements.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Concepts of Financial Accounting</b> Concepts of Financial Accounting: Need for Accounting Records, Distinguish between Financial and Management Accounts, Capital and Revenue, Cash and Profit , Income and Expenditure, Assets and Liabilities, Historical Cost Convention, Regulatory and Legal Framework for Financial Accounting, Role of Accounting Standards, Approaches to Creating Accounting Standards. IFRS.	<b>30</b>	<b>1</b>	
<b>Module II : Accounting Systems and Integrated accounts in a costing environment</b> Accounting Systems: Ledger Accounts and Supporting Documents, Double-Entry Book keeping, Cash and Bank	<b>30</b>	<b>1</b>	

accounts, Bank Reconciliation Statement, Petty Cash statements under an Imprest system, Nominal Ledger Accounts, Journal entries, Trial Balance, Accounts for Indirect Taxes, Payroll, a Non-Current Asset Register, Accounting Codes : Need & Use of Coding Systems.		
<p><b>Module III : Preparation of Accounts</b></p> <p>Preparation of accounts: Prepare Accounts Using Accruals and Prepayments, Bad Debts and Allowances for Receivables, Calculation of Depreciation and for Impairment values, Accounts for Inventories, Manufacturing Accounts, Income and Expenditure Accounts, Account for issue and redemption of Shares and Debentures, Prepare Financial statements from Trial Balance, Calculate basic Ratios.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Control of Accounting Systems and Financial statements for managers</b></p> <p>Control of Accounting Systems: Internal &amp; External Audit, Need for External Audit, Meaning of fair Presentation, Procedures for Internal Audit, Need for Financial Controls, Audit Checks &amp; Audit Trials, Nature of Accounting errors &amp; Correction of errors, Nature of Fraud, Methods of Fraud Prevention &amp; Detection.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Maheshwari,S.N.andS.K.Maheshwari,A n IntroductiontoAccountancy, EighthEdition,VikasPublishingHouse,2003.</li> <li>2. **Course Title: Business Communication****Course Code: BBAP3106****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: ❖ Project and report writing. ❖ Skills required for effective presentation. ❖ Drafting of resume. ❖ Interview processes.	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	The students should be able to: 1. Prepare good and effective projects and reports. 2. Develop proper voice modulation skills. 3. Develop good presentation skills. 4. Illustrate writing skills for various methods of business communication. 5. Demonstrate orating skills in different activities. 6. Develop confidence and positive body language.		
<b>Module I : Project Writing, Report writing and Proposals</b> Project and report writing, and proposals: Writing an effective report, Basics of project writing, Paragraph writing. Paper reading and Voice modulation, Basics of project presentation.		<b>30</b>	<b>1</b>
<b>Module II : Presentation &amp; Effective Listening</b> Making a presentation, The various presentation tools, along with guidelines of effective presentation, Boredom factors in presentation and ways to overcome them, Interactive presentation & presentation as part of a job interview. Art of effective listening. Professional Communication through new age mediums, body and sign language.		<b>30</b>	<b>1</b>
<b>Module III : Resume writing</b> Resume writing skills, Guidelines for a good resume. Facing an interview board: Proper body posture, Importance of gestures and Steps to succeed in interviews. Practice mock interview in classrooms with presentations on self, Self introduction: Highlighting positive and negative traits and dealing with people,		<b>30</b>	<b>1</b>

face to face.		
<p><b>Module IV : Leadership and Sessions on Current Topics</b></p> <p>Leadership: Quality of a leader, Leadership quiz with case study, Knowing skills and abilities. Introduction to group discussion techniques with debate and extempore, Increasing professionalism.</p> <p>Audio Video recording and dialogue sessions on current topics: Economy, Education system, Environment and Politics.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Wren&amp;Martin,Englishgrammar andcomposition,2003.</li> <li>2. <b>COURSE OBJECTIVE:</b>	To familiarize students with <ul style="list-style-type: none"> <li>❖ Power point and its application.</li> <li>❖ Electronic spreadsheet with special focus on MS-Excel.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Work efficiently on various applications of Microsoft office with special focus on power point.</li> <li>2. Create multimedia power point presentations.</li> <li>3. Add Hyperlink to PPTs.</li> <li>4. Prepare spreadsheets of data.</li> <li>5. Prepare bar graphs and charts of data.</li> <li>6. Create and analyze database.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I: Introduction to PowerPoint</b>			
Introduction to PowerPoint: Making presentations, Slide Layout, Slide orientation and Slide transitions, Animations, Presentation views and Slide sorter. Slide master, Handout master, Notes Master and Narration. AddingContent, Images, Clipart, Hyperlink, HeaderandFooter, Slidenumber.		<b>30</b>	<b>1</b>
<b>Module II : Introduction to Electronic Spreadsheets</b>			
Introduction to Electronic Spreadsheets, Feature of MS-Excel, Entering Data, Entering Series and Editing Data, Cell Referencing, ranges, Formulae and Functions, Auto sum, Copying Formula and Formatting Data, Creating Charts, Creating Database, Sorting Data and Filtering.		<b>30</b>	<b>1</b>

**Course Title: Business Law****Course Code: BBAP3201****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with <ul style="list-style-type: none"> <li>❖ Indian contract act, Sale of goods act, Negotiable instruments act, Companies act and Law of employment.</li> <li>❖ Comparison of English law with alternative Legal systems.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Identify the essential elements of a valid contract.</li> <li>2. Understand basic concepts of Indian Contract Act and Special Contracts.</li> <li>3. Describe rules related to Sale of Goods Act.</li> <li>4. Understand fundamental concepts of Negotiable Instruments Act.</li> <li>5. Understand the basic provisions of Indian Companies Act.</li> <li>6. Explain the sources of English law and describe elements of shari'ah law.</li> <li>7. Explain the law of employment and the protection available to an employee under law.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Indian Contract Act, Sale of Goods Act, and Negotiable Instruments Act</b>			
Indian Contract Act, 1872: Essentials of valid contract, Discharge of contract, remedies for Breach of contract, Contracts of Indemnity, Guarantee, Bailment, Pledge and Agency.			
Sale of Goods Act 1930: Meaning of Sale and Goods, Conditions and Warranties, Transfer of Property, Rights of an unpaid seller.		<b>30</b>	<b>1</b>
The Negotiable Instruments Act 1881: Essentials of Negotiable instruments, Kinds of Negotiable Instrument Holder and Holder in Due Course, Negotiation by endorsements, crossing of a cheque and Dishonour of a cheque.			
<b>Module II : The Companies Act</b>		<b>30</b>	<b>1</b>

<p>The Companies Act 2013: Essential characteristics of a company, Types of companies. Memorandum and Articles of association, Prospectus. Shares: Kinds, Allotment and Transfer. Debentures. Essential conditions for a valid meeting, Kinds of meetings and Resolutions. Directors, Managing Directors: Their appointment, Qualifications, Powers and limits on their remuneration, Prevention of oppression and mismanagement.</p>		
<p><b>Module III : Comparison of English law with alternative Legal systems</b></p> <p>Comparison of English law with alternative Legal systems: The sources of English law, Elements of the English legal system and The tort of negligence. Characteristics of the legal systems found in other countries. Describe elements of Shari'ah law. Describe the role of international regulations.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Law of employment</b></p> <p>Law of employment: Essential elements of an employment contract and the remedies available following termination of the contract. Explain how employers and employees are affected by health and safety legislation; Describe the consequences of a failure to comply with health and safety legislation. Explain the nature, legal status and administration of business organizations, The financing and management of companies limited by shares.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Maheshwari, S.N. and S.K. Maheshwari, A Manual of Business Law, 2 Edition, Himalaya Publishing House, 2004.</li> <li>2. **Course Title: Human Resource Management****Course Code: BBAP3304****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>		<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	<p>To familiarize students with:</p> <ul style="list-style-type: none"> <li>❖ Evolution and challenges of HRM.</li> <li>❖ Practical application of different theories related to HRM.</li> </ul> <p>The students should be able to:</p> <ol style="list-style-type: none"> <li>1. Describe the concept and importance of HRM.</li> <li>2. Demonstrate the purpose of the HR function and its relationships with other parts of the organization.</li> <li>3. Explain the contribution of HR to the sustainable delivery of organization's strategies.</li> <li>4. Apply the tools and techniques of HRM.</li> <li>5. Demonstrate the HR activities associated with developing employees.</li> <li>6. Demonstrate the role of manager in implementation of HR practices.</li> </ol>		
<p><b>Module I : Introduction to HRM</b></p> <p>Introduction: Concept, Nature, Scope, Objectives and importance of HRM, Evolution of HRM, Challenges of HRM, Personnel Management vs. HRM, Strategies for the New Millennium: Role of HRM in strategic management, Theories of behavioural aspects of control. Performance management and measurement frameworks, e.g. target setting, management by objectives, Balanced Scorecard. Trust and control, Human capital, Emotional quotient, Mentoring, ESOP, Flexi-time, Quality circles, Kaizen, TQM and Six Sigma. The relationship of the employee to other elements of the business, HR in different organizational form, project based, virtual or networked firms in different organizational contexts, Ethical code and the interface with HR practice.</p>		<b>30</b>	<b>1</b>
<p><b>Module II : Acquisition of Human Resources</b></p> <p>Acquisition of Human Resources: HR Planning, Forecasting, Personnel requirements. Retention, Absence and Leave, Employee turnover. Job analysis, Job description and Job specification. Recruitment: Sources and Process. Selection process: Tests and Interviews. Placement and</p>		<b>30</b>	<b>1</b>

<p>Induction. Job changes: Transfers, Promotions/demotions, Separations. The psychological contract and its importance to retention, Equality and diversity practices.</p> <p>Issues relating to fair and legal employment practices e.g. recruitment, dismissal, redundancy, and ways of managing these.</p> <p>Practices related to the creation of opportunities for employees to contribute to the organization including, job design, communications, involvement procedures and principles of negotiation.</p>		
<p><b>Module III : Training and Development</b></p> <p>Concept and Importance of training, Types of training, Methods of training, Design of training programme, Evaluation of training effectiveness. Executive development: Process and techniques, Career planning and development, Disciplinary and grievance procedures in resolving poor performance.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Communication and Negotiation</b></p> <p>Communication and Negotiation: The communication process, Types of communication tools and their use, Ways of managing communication problems. The importance of effective communication skills for the Chartered Management Accountant. The importance of non-verbal communication and feedback. Developing effective strategies for influence/persuasion/negotiation, The process of negotiation, Negotiation skills.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Chhabra, T. N., Human Resource Management, DhanpatiRai and Co. Pvt. Ltd New Delhi 2003.</li> <li>2. Dr. Gupta, C. **Course Title: Organizational Behavior****Course Code: BBAP3305****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: <ul style="list-style-type: none"> <li>❖ Basic concepts of organizational behavior.</li> <li>❖ Different forms of organization.</li> <li>❖ Impact of group and culture on the overall well-being of the organization.</li> </ul>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Describe the concept of organizational behavior.</li> <li>2. Explain different types of organization.</li> <li>3. Understand the hierarchy of management.</li> <li>4. Describe the process of group formation, group structure, the role of individual in group and team working.</li> <li>5. Explain the key concepts and theories regarding to individuals and group.</li> <li>7. Explain the theories of group creation and development in workplace.</li> <li>8. Illustrate the models of change and its effects.</li> <li>9. Define organizational culture and conflict management.</li> </ol>		
<b>Module I : Introduction to Organization</b>		<b>30</b>	<b>1</b>
Introduction to Organization: Different Purposes of Organizations, Ownership: private sector, public sector, Motive: for-profit, non-profit, Mission and vision: shared values and beliefs, Creating value for stakeholders: control and coordination of resources to achieve goals and outcomes, efficient production of goods and services, facilitating innovation.  Different structures of organization, Mintzberg: technical core, technical support, administrative support, top and middle management, Organizational configuration: Contextual dimensions, Structural dimensions. The effect of Technology, Environment & Culture.			
<b>Module II : Introduction to Organizational Behaviour</b>		<b>30</b>	<b>1</b>
Various forms and functional boundaries of the organization			

including externalization, Shared service centres (SSC) and Business process outsourcing (BPO): Closed and open systems, Vertical and horizontal structures, Outsourcing, Alliances, Virtual network structure.  Concept and nature of Organizational behaviour, Contributing disciplines to the field of O.B., O.B. Models, Need to understand human behaviour, Challenges and Opportunities.		
<b>Module III : Group Behaviour&amp; Team Development</b>  Group Behaviour& Team Development: Concept of Group and Group Dynamics, Types of Groups, Formal and Informal Groups, Stages of Group Development, Theories of Group Formation, Group Norms, Group Cohesiveness, Group Think and Group Shift, Group Decision Making, Inter Group Behaviour, Concept of Team Vs. Group, Types of teams, Building and managing effective teams. Motivating team members.	<b>30</b>	<b>1</b>
<b>Module IV : Organization Culture, Conflict and Change Management</b>  Organizational Culture: Concept, Levels, Functions, Socialization, Creating and sustaining culture,  Analysing organizational culture: The cultural web framework. Models for categorizing culture. Managing across Cultures, Empowerment and Participation.  Managing Conflict: Sources, Types, Process and Resolution of conflict. Managing Change: Types of change, External and internal triggers for change, Stage model of change management, Principles of change management, Problem identification as a precursor to change, Reasons for resistance to change, Approaches to managing resistance to change.	<b>30</b>	<b>1</b>
<b>Suggested Readings:</b>

**Course Title: Pricing and Product Decisions****Course Code: BBAP3306****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize students with: <ul style="list-style-type: none"> <li>❖ Pricing methodologies adopted by organizations and factors effecting the pricing decision.</li> <li>❖ Product and product mix decisions and variables influencing the decision.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Explain concepts of cost and revenue relevant to pricing and product decisions.</li> <li>2. Explain the issues that arise in pricing and conflict between marginal cost decisions.</li> <li>3. Illustrate the short term pricing decisions.</li> <li>4. Apply break even analysis in multiple product concepts.</li> <li>5. Describe relevant cost analysis to various types of short term decisions.</li> <li>6. Analyze product mix decisions, including circumstances where linear programming methods are needed to identify optimal solutions.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Pricing &amp; Product Decisions</b>			
Pricing & Product Decisions: Concept of Cost & Revenue relevant to pricing. Principles of decision making: The importance of strategic, intangible and non-financial judgements in decision-making. Identification of relevant cash flows, Conflict between Cost accounting for Profit Reporting and Stock Valuation and Information required for decision-making. Marginal Cost principle, Marginal and full Recovery of cost & related pricing decisions in the short and long-term.		<b>30</b>	<b>1</b>
<b>Module II : Short-term Pricing Decisions</b>			
Short-term Pricing Decisions: Product mix analysis in situations if there are limitations on product/service demand and production constraint, Multi-product break-even analysis, Break-even and profit/volume charts, Contribution/sales ratio, Margin of safety etc. Linear programming, Solution by graphical methods of two variable problems, together with		<b>30</b>	<b>1</b>

understanding of the mechanics of simplex solution, shadow prices etc. Sensitivity analysis of CVP-based decision models.		
<p><b>Module III : Pricing Strategies</b></p> <p>Pricing Strategies: Pricing based on profit maximization in imperfect markets, Financial consequences of alternative pricing strategies. Joint costs to be allocated to final products for financial reporting purposes and its limitations in decisions concerning process and product viability. The allocation of joint costs and decisions concerning process and product viability based on relevant costs and revenues.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV: Cost Planning and Analysis for Competitive Advantage</b></p> <p>Cost Planning and Analysis for Competitive Advantage: Evaluate techniques for analyzing and managing costs for competitive advantage and contrast value analysis and functional cost analysis. Benefits of just-in-time production, Total Quality Management and theory of constraints and the implications of these methods for decision-making in the 'new manufacturing environment', Kaizen costing, Continuous improvement and Cost of quality reporting, Learning curves and their use in predicting product /service costs. Target Cost. The value chain and supply chain management, Pareto Analysis. Lifecycle costing and its implications for marketing strategies.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Pricing decisions, Mark I. Alpert, Scott, Foresman.</li> <li>2. Pricing decisions in small business, W. Warren Haynes.</li> <li>3. Total Quality Management by Dale H. Besterfield, Pearson.</li> <li>4. Chary- Production and operation Management, Tata McGrawHill.</li> </ol>		

**Course Title: Managing Finance in Digital World****Course Code: BBAP3401****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Finance plays in an organization.</li> <li>❖ Technical foundation for understanding Information Systems.</li> <li>❖ Role of Data and Information in enhancing business processes and management decision making across the enterprise.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Demonstrate the value of information systems in organizations.</li> <li>2. Describe the purpose of finance function in organization.</li> <li>3. Demonstrate ways of organizing and managing information systems in the context of the wider organizations.</li> <li>4. Explain the technical components and options for information technology and system design.</li> <li>5. Explain the role of emerging technologies e.g. Big Data digitization and their uses.</li> <li>6. Describe technologies that effect Business and finance.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Finance Function and technology in a digital world</b> Role of finance function in organization. Features of fourth industrial revolution. Technologies that effect business and finance: cloud computing, big data analytics, process automation, AI, data visualization, block chain, internet of things, mobile, 3D printing.		<b>30</b>	<b>1</b>
<b>Module II: Data and information in a digital world</b> Describe the ways in which data is used by the finance function. Explain the competency that finance professional need: data strategy and planning, data engineering, extraction and mining, data modeling, manipulation and analysis, data and insight communication.		<b>30</b>	<b>1</b>
<b>Module III: Shape and structure of the finance function</b>		<b>30</b>	<b>1</b>

Evolution of the shape of the finance function. Shape of finance function in digital era. Finance operation, financial reporting and financial planning and analysis, strategic partnering for value, strategic leadership of the finance team.		
<p><b>Module IV: Finance interacting with the organization</b></p> <p>Finance interaction with operations: Process management, product and service management, supply chain management. Finance function interact with sales and marketing: Market segmentation, big data analytics in marketing, channel management, sales forecast and management. Finance function interacts with Human Resource. Finance function interacts with IT.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <p>1. CIMA Official Study Text, CIMA &amp; Kaplan Publishing.</p>		

**Course Title: Financial Reporting I****Course Code: BBAP3402****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Regulatory Framework of Financial Reporting.</li> <li>❖ IFRS conceptual framework.</li> <li>❖ Managing cash and working capital.</li> </ul>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. To understand the regulatory environment of financial reporting.</li> <li>2. To know the financial reporting standards and how they are applied to prepare financial statement.</li> <li>3. Explain how working capital is managed to ensure continuous operations.</li> </ol>		
<b>Module I: Regulatory environment of financial reporting</b> Major regulators: Regulators and their roles. National Regulators, IFRS Foundation, IASB, IOSCO, Standard setting process, IIRC, difference between rule based and principal based regulation. Describe the role of board in corporate governance. Corporate Governance and financial stewardship principles to financial reporting.		<b>30</b>	<b>1</b>
<b>Module II: Financial Statements</b> Main elements of financial statement contained in the IFRS conceptual framework: objective and purpose of financial reporting, qualitative characteristics of financial information, reporting entity and its boundaries, recognition, measurement basis, presentation and disclosure , concept of capital maintenance.		<b>30</b>	<b>1</b>
<b>Module III: Financial Reporting Standards</b> IAS16, IFRS5, IFRS16, IAS36, IAS2 and IAS10. Preparation of financial position. Statement of comprehensive income, statement of changes in equity and statement of cash flow.		<b>30</b>	<b>1</b>
<b>Module IV: Working capital Management</b> Types and sources of short term finance. Calculation of operating and		<b>30</b>	<b>1</b>

cash flow cycle: Techniques used to manage working capital like receivable management, payable management, inventory management, risk of overtrading, short term cash flow forecasting, investing short term cash.

**Course Title: Taxation****Course Code: BBAP3403****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	<p>To familiarize the students with:</p> <ul style="list-style-type: none"> <li>❖ Fundamental concepts in direct and indirect taxes.</li> <li>❖ Computation of taxable income under various heads of income, exemptions from income, deductions and rebates.</li> <li>❖ Assessment of taxable income.</li> <li>❖ Fundamental knowledge about GST and its various implications.</li> </ul>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	<p>The students should be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the features of the types of indirect and direct taxation that typically apply to an incorporated entity.</li> <li>2. Calculate various indirect taxes including Goods and Services Tax.</li> <li>3. Calculate the taxable income from Salary, House property, Business &amp; Profession, Capital Gains, Other sources.</li> <li>4. Apply the deductions and rebates available under different sections for calculating taxable income.</li> <li>5. Determine the taxable income of individuals and firms.</li> <li>6. Calculate the assessment and returns of Goods and Services Tax.</li> </ol>		
<p><b>Module I: Introduction</b></p> <p>Definitions of direct taxation, Indirect taxation, Taxable person, Incidence and competent jurisdiction. Types of taxation: progressive, proportional and regressive.</p> <p>Features of different types of indirect taxation: Unit taxes, Ad valorem taxes, Excise duties, Property and wealth taxes, Consumption taxes, mechanism of value added tax in the context of an incorporated entity.</p> <p>Features of different types of direct taxation: Tax on trading income, Capital taxes. Impact of employee taxation.</p> <p>Introduction to Income Tax Act 1961: Salient Features and Basic</p>		<b>30</b>	<b>1</b>

Concepts, Previous year, Assessment year, Person, Gross total income and Agricultural income. Residential status and incidence of tax, Fully exempted incomes.		
<p><b>Module II: Income, Rebates and Reliefs</b></p> <p>Heads of Income: Salary, House Property, Business or Profession, Capital gains, Other sources. Clubbing of income. Deductions under Chapter VI related to individuals and firms. Assessment of individuals and firms including simple problems.</p> <p>Rebates and Reliefs, Set off and carry forward of losses, Deduction of tax at sources. Payment of advance tax. Law relating to maintenance of books, accounts and vouchers.</p>	<b>30</b>	<b>1</b>
<p><b>Module III: Introduction to Goods and Services Tax</b></p> <p>Concept and Need: Salient features, subsuming of taxes, types of GST, meaning of supply interstate and intrastate, levy and collection of tax. Process for registration, Amendment and cancellation of registration, tax invoice, bill of supply, payment and refund voucher, delivery challan, e-way bill, debit and credit notes.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV: Assessments and Returns</b></p> <p>Concept of time and value of supply of goods and services, valuation of supply under GST. Input Tax credit, payment of tax, GST Return.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Singhanian Dr., V. K. and Singhanian Monica, Students Guide to Income Tax, Taxman Publications.</li> <li>2. **Course Title: Financial Management I****Course Code: BBAP3404****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Major decision-making areas of managerial finance and some selected topics in financial theory.</li> <li>❖ Available corporate securities that firms can use to finance investment, short term and long term.</li> <li>❖ Evaluation of various projects using capital budgeting techniques.</li> <li>❖ Working capital management.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Describe the scope and objectives of financial management.</li> <li>2. Illustrate the different sources of financing.</li> <li>3. Discuss the potential for conflict within the role of the finance function.</li> <li>4. Analyse information for use in long-term decision making including consideration of tax, inflation and other factors.</li> <li>5. Discuss the financial consequences of dealing with long-run projects, in particular the importance of accounting for the 'time value of money'.</li> <li>6. Evaluate investment appraisal techniques and explain their results.</li> <li>7. Calculate working capital requirements and manage key components of working capital.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Introduction</b> Financial Management: Meaning, Scope, Objectives of Financial Management. Profit Maximization Vs. Wealth Maximization, Liquidity Vs Profitability. Financial Management and other Areas of Management, Methods of Financial Management, Organization of Finance Function. Sources of Financing: Classification of Sources of Finance, Security Financing, Loan Financing, Project Financing, Loan Syndication. Book Building, New Financial Institutions and Instruments viz.		<b>30</b>	<b>1</b>

<p>Depositories, Factoring, Venture Capital, Credit Rating, Commercial Paper, Certificate of Deposit, Stock Invest, Global Depository Receipts.</p> <p>Types of short-term finance including trade payables, Overdrafts, Short-term loans and debt factoring. Types of cash investment including interest bearing deposits, short-term treasury bills and other securities.</p> <p>Potential conflicts: interdependence/independence, Short-term/long-term, Capital/revenue.</p>		
<p><b>Module II: Valuation, Capital Structure and Leverages</b></p> <p>Concept in Valuation: Time Value of Money, Valuation Concepts, Valuation of Securities viz., Debentures, Preference shares and Equity Shares.</p> <p>Capital Structure: Meaning, Concept of Capital Structure and Financial Structure, Patterns of Capital Structure, Optimum Capital Structure, Capital Structure Theories, Factors Determining Capital Structure, Capital Structure Practices in India.</p> <p>Cost of Capital: Concept, Importance, Classification and Determination of Cost of Capital.</p> <p>Leverages: Concept, Types of leverages and their significance.</p>	<b>30</b>	<b>1</b>
<p><b>Module III: Relevant Cash Flows and Investment Decisions</b></p> <p>Relevant cash flows taking into account tax, inflation and other factors, and the use of perpetuities to derive 'final' project value where appropriate. The identification and integration of non-financial factors in long-term decisions.</p> <p>The process of investment decision making including origination of proposals. Creation of capital budgets. Go/no go decisions on individual projects where judgements on qualitative issues interact with financial analysis. Discounting, including the use of annuities in comparing projects with unequal lives and the profitability index in capital rationing situations. Capital investment real options i.e. to make follow-on investment, abandon or wait.</p> <p>The strengths and weaknesses of: Payback, Discounted payback, Accounting rate of return (ARR), Net present value (NPV), Internal rate of return (IRR) and Modified internal rate of return based on a project's terminal value.</p> <p>Prioritization of projects that are mutually exclusive, and/or are subject to</p>	<b>30</b>	<b>1</b>

single-period capital rationing, and/or have unequal lives.		
<p><b>Module IV : Working Capital Management</b></p> <p>Working Capital Management: Concept, Management of Cash, Management of Inventories, Management of Accounts Receivable and Accounts Payable, Over and under Trading. Interpretation of Inventory ratios either in comparison to prior periods, competitors or to the industry as a whole, taking into account the nature of the industry. Working capital cycle. Policies for the management of the total level of investment in working capital: Aggressive, moderate and conservative. Methods of trade receivables management, including credit control procedures. Methods of trade payables management and significance of trade payables as a source of finance and how this affects the relationship with suppliers. Financial impact of changing working capital policies. Identification of areas for improvement.</p> <p>Dividend, Bonus and Rights: Dividend Policy, Relevance and Irrelevance Concepts of Dividend, Corporate Dividend Practices in India.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. Maheshwari S.N., Financial Management, Principles and Practice, Sultan Chand &amp; Sons, 9th Edition 2004.</li> <li>2. **Course Title: Production & Operations Management****Course Code: BBAP3405****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Different types of production processes, plant layout and material handling, operations planning and control, inventory management and quality management.</li> <li>❖ The appropriate tools and techniques needed for understanding the operational situation and also understanding the logistics management.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Demonstrate the contribution of operations management to the efficient production and delivery of fit-for-purpose goods and services.</li> <li>2. Understand the establishment and management of supply chains.</li> <li>3. Conceptualize lean management.</li> <li>4. Apply the statistical tool &amp; techniques to manage and control the quality.</li> <li>5. Explain and apply the facility layouts and location decisions in production system.</li> <li>6. Apply the tools and concepts of operations management to deliver sustainable performance.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I: Introduction to Operation Management</b> Introduction to Operation Management: Need and significance of OM, Five P's of Production, Types of Transformation. Forecasting of Demand: Quantitative & Qualitative Techniques in Forecasting. Waiting Line & Inventory Management: Economics of Waiting Line, Queuing System, Four Waiting Line Models along with application. Inventory management and analysis, Inventory Models.		<b>30</b>	<b>1</b>
<b>Module II: Relational Procurement And Operations</b> Shift from price-based to relational procurement and operations, Relationship of operations and supply management to the competitiveness of the firm, Issues surrounding operations management in services. Importance of sustainability in operations.		<b>30</b>	<b>1</b>

<p>Supply chains in competition with each other, Role of supply networks, Demand networks as an evolution of supply chains. Design of products/services and processes and its relationship with operations and supply. Concept of Reverse Logistics. Ways to manage relationships with suppliers.</p> <p>Process design, tools and concepts of lean management, lean synchronization, Implementation of a quality programme.</p>		
<p><b>Module III: Quality Management &amp; Statistical Quality Control</b></p> <p>Quality Management &amp; Statistical Quality Control: TQM, Quality Specification, Design Quality, Quality at Source, Zero Defects, Cost of Quality, Continuous Improvement, Benchmarking, Poka Yokes, Quality Award. Statistical Quality Control: Acceptance Sampling, AQL &amp; LTPD, P-Chart, X &amp; R Chart, Kaizen, Six Sigma.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Facility Location &amp; Layout and Process Technology</b></p> <p>Facility Location and Layout: Issues in Facility Location, Plant Location Methods, Factor Rating, Centre of Gravity Methods, Analytic Delphi Method, Four Basic Lay Out Formats, Assembly Line Balancing, Splitting Tasks, Problems in Facility Layout.</p> <p>The concept of CSR and sustainability in operations management.</p> <p>Process technology: CNC, Robots, AGV, FMS, CIM, Decision Support Systems, Expert Systems, Work study.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <ol style="list-style-type: none"> <li>1. N.J. Aquilano, R.B. Chase &amp; F.R. Jacob: Operation Management for Competitive Advantage, Tata McGraw –Hill, 9th Edition.</li> <li>2. R.C. Manocha: Production &amp; Operation Management (Latest Edition).</li> <li>3. S.P. Gupta, Statistical Method, Sultan Chand, Latest Ed.</li> <li>4. E.S. Buffa, Modern Production Management, John Wiley Ed. 2002.</li> <li>5. S.N. **Course Title: Financial Reporting II****Course Code: BBAP3406****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Reporting and interpretation of the financial position of the organization for the benefit of all stakeholders.</li> <li>❖ The ethical conduct in preparation of reports and corporate governance.</li> <li>❖ Conceptual and regulatory framework for financial reporting, both, national and international.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Understand the different principles of taxation.</li> <li>2. Identify ethics involved in reporting and assessing of financial reports.</li> <li>3. Explain ethical conduct according to CIMA code.</li> <li>4. Explain contemporary transformation of finance function.</li> <li>5. Identify the different corporate tax computations.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>Module I : Principles of Taxation</b>			
Features of Direct and Indirect taxes, corporate and personal taxes. Basis of taxation. Accounting profit vs. Taxable profit. Calculate corporate tax.		<b>30</b>	<b>1</b>
<b>Module II : Ethics in Financial Reporting and Contemporary Finance Functions</b>			
Ethics in Financial Reporting: Ethical principles in reporting and assessing information, Sources of ethical codes, Provisions of the CIMA Code of Ethics for Professional Accountants, Assurance and tax-related activities of the accountant. The need and scope of corporate governance regulation, Approach to corporate governance regulations in primary markets around the world in particular, the US and UK, key differences in approach across these markets.			
Contemporary transformation of the finance functions: Reconfiguration (bureaucratic to market oriented), Shared services (outsourced market		<b>30</b>	<b>1</b>

orientation), Business Process Re-engineering (roles of process working), Relocation (retained/near-shore/off-shore), Segregation of the finance function (transactional/transformational activities), Business partners (support involvement)		
<p><b>Module III: Effect of Taxation</b></p> <p>Taxation across international borders. Corporate Residence, types of overseas operation for e.g. subsidiaries or branch, double taxation, transfer pricing, tax avoidance and tax evasion.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV : Corporate Income Tax Computations</b></p> <p>Corporate income tax computations: Distinction between accounting profit and taxable profit and the reconciliation between them. This will include: Identification and treatment of exempt income or income taxed under different rules, Identification and treatment of disallowable expenditure, Replacement of accounting depreciation with tax depreciation, Calculation of tax depreciation allowances, Calculation of corporate income tax liability, Relief for trading losses. Capital tax computations: Principle of a capital tax computation on the sale of an asset, Allowable costs, Methods of relieving capital losses, Concept of roll over relief.</p>	<b>30</b>	<b>1</b>
<p><b>Suggested Readings:</b></p> <p>1. CIMA Official Study Text, CIMA &amp; Kaplan Publishing</p>		

**Course Title: Advanced Financial Management****Course Code: BBAP3501****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Management's Role and Responsibility towards stakeholders.</li> <li>❖ Valuation methods and financial decisions relating to debt/equity, pay-outs, equity issuance.</li> <li>❖ Issues related to corporate risk management.</li> <li>❖ Developments in the international financial market.</li> </ul>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Understand accountabilities of Management towards stakeholders.</li> <li>2. Generate a valuation range for a project or a company with different valuation approaches.</li> <li>3. Apply financial derivatives to hedge against forex risk and interest rate risk.</li> <li>4. Understand the value impact of capital structure.</li> <li>5. Conduct performance appraisal on the basis of financial reports.</li> <li>6. Understand issues related to dividend policy and transfer pricing in multinationals.</li> <li>7. Develop conversance with the emerging trends in the global financial market.</li> </ol>		
<b>Module I: Management's role and responsibility towards stakeholders and Investment Appraisal</b> Management's role and responsibility towards stakeholders, The role and responsibility of senior financial executive/advisor. Financial strategy formulation. Ethical issues in financial management, Conflicting stakeholder interests. Advanced investment appraisal: Concept of FCFF and FCFE, discounting of cash flow, Valuation of Firm v/s valuation of equity, Use of free cash flows. Impact of financing on investment decisions and adjusted present values. Costs, Benefits and Risks analysis for projects. Linking investment with customer's requirements. Designing Capital Structure.		<b>30</b>	<b>1</b>

<p><b>Module II: Capital Decision and Enterprise Performance Appraisal</b></p> <p>Modes of Capital: Seed capital, Angel Investment, Venture Capital, Private Equity and Capital markets. Modes of debt: Preference equity, Term loans, CC, Bonds, Debentures etc. Exotic capital instruments and their impact on financial reporting. Hybrid financing, Option pricing theory in investment decisions. International investment and financing decisions. Impact of capital investment on financial reporting. Enterprise performance measurement systems like Balanced Score Card, EVA &amp; V.A.R analysis.</p>	<b>30</b>	<b>1</b>
<p><b>Module III : Treasury and risk management</b></p> <p>Role of the treasury function in multinationals. Types of risk and its classification. Use of financial derivatives to hedge against forex risk. Use of financial derivatives to hedge against interest rate risk, Black-scholes model, other forms of risk. Dividend policy in multinationals and transfer pricing. Economic environment for multinationals. Management of international trade and finance. Strategic business and financial planning for multinationals.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV: Emerging Issues in Finance and Financial Management</b></p> <p>Development in world financial markets. Financial engineering and emerging derivative products. Developments in international trade and finance, relate their technical understanding of issues of strategic importance to the firm. Management of international trade and finance.</p>	<b>30</b>	<b>1</b>

**Course Title: Business Policy & Strategy****Course Code: BBAP3502****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ All essential aspects of business policy and strategic management.</li> <li>❖ The process of strategic management.</li> <li>❖ Strategy formulation for different forms of organization.</li> </ul>	<b>No. of Hours</b>	<b>No. of Credits</b>
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Identify role of Business Policy in corporate governance.</li> <li>2. Know, understand, and apply the strategic management process to analyze and improve organizational performance.</li> <li>3. Conduct and draw conclusions from external analysis of an organization's environment.</li> <li>4. Conduct and draw conclusions from internal analysis of an organization's capabilities.</li> <li>5. Formulate realistic strategies and develop implementation plans to execute those strategies.</li> <li>6. Understand Strategy development in different contexts.</li> </ol>		
<b>Module I : Introduction of Business Policy</b> Introduction: Nature, scope and importance of the course on Business Policy, Evolution of this course. Forecasting, Long-range planning, Strategic Planning and Strategic Management. Defining strategy and strategic management. Core areas of strategic management. Levels of strategy within organizations. Stages in the rational approach to strategy developments.		<b>30</b>	<b>1</b>
<b>Module II : Environmental Analysis</b> Environmental Analysis: Porter's Five Forces model, Need, Characteristics and Categorization of environmental factors. Approaches to the environmental scanning process: Structural analysis of competitive environment, ETOP a diagnosis tool. 4-D and 7- S models to provide an overview of the project process and the nine key process areas		<b>30</b>	<b>1</b>

<p>to show what happens during each part of the process.</p> <p>The macro and micro environment: LONGPEST analysis and its derivatives, Globalization, Country and political risk factors, Emerging markets, Porter's diamond and its use for assessing the competitive advantage of nations.</p>		
<p><b>Module III: Analysis of Internal Resources and Competitor Analysis</b></p> <p>Analysis of Internal Resources: Strengths and Weakness, Resource Audit, Strategic Advantage Analysis, Value-Chain Approach to Internal Analysis. Methods of analysis and diagnosing Corporate Capabilities : Functional Area Profile and Resource Deployment Matrix, Strategic Advantage Profile, SWOT analysis. The concept of competitive advantage. Generic competitive strategies. Value, Rarity, Inimitability and Non-substitutability as bases of competitive advantage. Achieving sustainable competitive advantage. Key concepts and the role of competitor analysis, Approaches to collecting competitor information. Sources, types and quality of competitor data. Analysing and interpreting competitor data. The application of Big Data to competitor analysis.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV: Product/Market Evolution and Issues in the Implementation of Strategy</b></p> <p>Product/Market Evolution: Matrix and Profit Impact of Market Strategy (PIMS) Model.</p> <p>Major Issues involved in the Implementation of Strategy: Organization structure, leadership and resource allocation. Intended, Emergent, Logical Incrementalism and Political approaches. Strategy development in different contexts, e.g. SMEs, public sector, not-for-profit organizations. Resource-based view: Resources and competencies, Internal value and dynamic capabilities. Strategy and Structure.</p>	<b>30</b>	<b>1</b>

**Course Title: Project Planning & Evaluation****Course Code: BBAP3503****Course Credit: 4**

<b>COURSE OBJECTIVE:</b>	To familiarize the students with: <ul style="list-style-type: none"> <li>❖ Financial feasibility of a project.</li> <li>❖ The entire process of project management.</li> </ul>		
<b>LEARNING OUTCOMES:</b>	The students should be able to: <ol style="list-style-type: none"> <li>1. Understand the importance of Capital investments.</li> <li>2. Evaluate project propositions by using capital budgeting techniques.</li> <li>3. Evaluate a project to develop the scope of work, provide accurate cost estimates and to plan the various activities.</li> <li>4. Conduct and analyze market and demand through primary and secondary surveys, thereby, forecasting demand.</li> <li>5. Conduct technical analysis of the project.</li> <li>6. Identify the resources required for a project and to produce a work plan and resource schedule</li> <li>7. Monitor the progress of a project and to assess the risk of slippage, revising targets or counteract drift.</li> <li>8. Understand behavioral aspect of Project Management.</li> </ol>	<b>No. of Hours</b>	<b>No. of Credits</b>
<p><b>Module I : Overview and Introduction</b></p> <p>Overview of Capital Investments: Importance and Difficulties, Types of Capital Investments. Phases of Capital Budgeting, Objectives of Capital Budgeting, Common Weaknesses in Capital Budgeting. Levels of Decision Making. Facets of Project Analysis, Feasibility Study. Financing of Projects: Capital Structure, Menu of Financing, Equity Capital, Preference Capital, Internal Accruals, Term Loans, Debentures, Working Capital, Advanced Miscellaneous Sources. Raising Venture Capital. Raising Capital in International Markets.</p> <p>Financial Estimates and Projections: Cost of Project, Estimates of Sales and Production, Cost of Production, Working Capital Requirement and its Financing. Means of Finance. Profitability Projections, Projected Cash</p>		<b>30</b>	<b>1</b>

Flow Statement, Projected Balance Sheet, Multi Year Projections.		
<p><b>Module II: Market Analysis, Demand Analysis and Technical Analysis</b></p> <p>Market and Demand Analysis: Situational Analysis and Specification of Objectives. Collection of Secondary Information, Conduct of Market Survey, Characterization of Market. Demand Forecasting, Uncertainties in Demand Forecasting. Market Planning, Technical Analysis: Manufacturing Process/ Technology, Technical Arrangements, Material Inputs and Utilities, Product Mix, Plant Capacity, Location and Site, Machineries and Equipment, Structures and Civil Works, Environmental Aspects, Project Charts and Layouts. Schedule of Project Implementation, Need for Considering Alternatives.</p>	<b>30</b>	<b>1</b>
<p><b>Module III: Project Management</b></p> <p>Managing projects: Definition of project attributes. Time, cost and quality project objectives. The purpose and activities associated with the key stages in the project lifecycle. Examples of role of Project Management methodologies in project control e.g. PRINCE2, PMI. Key tools for project management, including Work Breakdown Schedule (WBS), Gantt Charts and Network analysis. Managing project risk. PERT charts. Scenario planning and buffering. Contribution of project management software. Project structures including matrix structure and their impact on project achievement. The role and attributes of an effective project manager. The role of the Chartered Management Accountant and other key players in projects. Managing key project stakeholders. The lifecycle of project teams. Leading and motivating project teams.</p> <p>Network Techniques: Development of Project Network, Time Estimation with Simple Practical Problem using EST, EFT, LST, LFT, Total Float, Determination of the Critical Path, Scheduling when Resources are limited, PERT Model, CPM Model, Simple Practical Problem of Crashing, Network Cost System.</p>	<b>30</b>	<b>1</b>
<p><b>Module IV: Project Review, Administrative Aspects and Risk Analysis</b></p> <p>Project Review and Administrative Aspects: Control of In- Progress Projects, Post Completion Audits, Abandonment Analysis, Administrative Aspects of Capital Budgeting, Agency Problem, Evaluating the Capital Budgeting System of an Organization. Risk Analysis: Firm Risk and Market Risk, Portfolio Related Risk Measures. Mean Variance Portfolio Construction, Portfolio Theory and Capital</p>	<b>30</b>	<b>1</b>

Budgeting. Capital Asset Pricing Model, Developing the Inputs Required for Applying CAPM, Empirical Evidence on Capital Asset Pricing Model, Capital Asset Pricing Model and Capital Budgeting.
