Transforming education, we believe in providing quality education to our students, so that they could achieve their dream and fly high in their lives. The university not only focuses on their intellectual development but also helps them in growing as a person by conducting various workshops & seminars.

ABOUT THE WEBINAR

The Covid-19 pandemic may worsen existing mental health problems and lead to more cases among children and adolescents because of the unique combination of the public health crisis, social isolation, and economic recession.

Mental health issues are the leading impediment to academic success. Mental illness can affect students' motivation, concentration, and social interactions—crucial factors for students to succeed in higher education.

Thus, join us on our webinar as we discuss the challenges faced, solutions adopted, and the road ahead.
