UNIVERSITY

SCRS STUDENT CHAPTER

PRESENTS ANNUAL REPORT
FOR THE
ACADEMIC SESSION
(2024-2025)

Pm

INTRODUCTION

The **SCRS Student Chapter** at the **School of Engineering, BBD University** is a vibrant, student-led initiative dedicated to advancing research, innovation, and interdisciplinary collaboration. The SCRS Student Chapter provides a platform for engineering students to engage with emerging technologies and conduct meaningful research.

The chapter actively organizes workshops, hands-on training, expert talks, research paper discussions, and collaborative projects. By connecting students with academic mentors and industry professionals, the chapter nurtures an ecosystem of **curiosity, creativity, and critical thinking**.

Aims and Objectives

Aims:

- To foster interdisciplinary knowledge and research.
- To create a collaborative ecosystem that connects **students, researchers, and industry experts**.
- To prepare students for **research-oriented careers and advanced studies** in AI and related areas.

Objectives:

- To **organize technical events**, including seminars, workshops, and hackathons, focusing on cognitive computing, machine learning, neural networks, and robotic systems.
- To **encourage students to engage in research and development activities** and publish their work in conferences and journals.
- To **initiate interdisciplinary projects**.
- To **collaborate with faculty members, research labs, and industry professionals** for mentorship, internships, and real-world exposure.
- To support students in **pursuing patents, innovative prototypes, and startup ideas**.

SCRS Student Chapter is supported by a well-structured team framework consisting of the Core Team, Event Management Team, Technical & Research Team, Media Team, Documentation Team, and Recruitment Team, each contributing uniquely to ensure smooth, impactful, and professional chapter operations.

Phz

Core Team: Ensures effective decision-making, strategic planning, and smooth coordination of all chapter activities.

Event Management Team: Plans, organizes, and executes all events, workshops, and chapter programs efficiently.

Technical & Research Team: Leads technical projects and research activities while supporting academic and innovation initiatives.

Media Team: Creates posters, videos, and digital content while managing the chapter's overall branding and visuals.

Documentation Team: Maintains accurate records and prepares detailed documentation, including the annual report.

Recruitment Team: Handles member on boarding, communication, and management to build an active student community.

Ph

Introduction to SCRS Student Chapter Team (2024-2025)

The SCRS Student Chapter works through a coordinated structure where different groups handle leadership, event planning, technical learning, creativity, documentation, and member on boarding. Each group plays a unique role—some guide overall functioning, some organize activities, some focus on skill development, while others manage communication, maintain records, or bring in new members. Together, they ensure smooth operations, successful events, professional communication, and continuous growth of the chapter.

Event Report

Name of Event: World Congress on Smart Computing (WCSC 2025)

Date: February 22– 23, 2025

Organized By: AI Research Centre, School of Engineering, Babu Banarasi Das University, Lucknow

Technically Sponsored by: Soft Computing Research Society

Chief Guest: Dr. Lokesh Chouhan

Guest of Honor: Dr. Jagdish Chand Bansal

Brief Description of Event:

School of Engineering, BBD University successfully organized the International Conference – World Congress on Smart Computing (WCSC 2025) on February 22-23, 2025. The conference proceedings will be published in the Springer Book Series “Studies in Smart Technologies”. The conference received 413 papers and only 39 papers were finally accepted (with an acceptance ratio of 10%) maintaining the quality standards of publications.

Our sincere thanks to Dr. Lokesh Chouhan, Dean Academics, National Forensic Sciences University (NFSU), Goa for joining the inaugural ceremony as Chief Guest. Many thanks to Dr. Jagdish Chand Bansal, General Secretary, SCRS for joining us as the Guest of Honor. Heartfelt thanks to Hon'ble Pro Vice Chancellor, BBD University Prof.(Dr.)Satish Chander Sharma for his kind support, motivation, and supervision during the entire conference.

We also express our gratitude to Dr. Mukesh Saraswat, Jaypee Institute of Information Technology, Noida, Dr Sandeep Kumar Poonia, Professor, CHRIST University, Bangalore and Dr. Harish Sharma, Rajasthan Technical University for their extraordinary support in organizing the conference.

Our heartfelt thanks to Dr. Jagdish Chand Bansal, South Asian University, New Delhi, for his kind support and motivation. Thanks to all Keynote Speakers, Industry Invited Speakers, Session Chairs, Participants, and Organizing Committee Members for making the conference a grand success.

Event Report

Name of Event: FDP on Agentic AI and PEGA: Practical Foundations

Date: 16th to 20th June, 2025, 7:00 PM to 9:00 PM

Organized By: AI Research Centre, School of Engineering, Babu Banarasi Das University, Lucknow

Technically Sponsored by: IEEE Computational Intelligence Society, U.P. Section, India and SCRS

Name of Coordinator: Ms. Anjali Nigam

No. of Participants: 60

Google Meet Link: <https://meet.google.com/hcr-gqpm-byx>

Brief Description of Event:

The AI Research Centre, School of Engineering, BBD University, conducted a Faculty Development Program titled “**Agentic AI and PEGA: Practical Foundations**” from June 16 to June 20, 2025. This program provided a valuable opportunity for participants to explore the latest advancements in Agentic AI and PEGA. The sessions were led by **Mr. Sairohith Thummarakoti**, a seasoned IT professional from HCA Healthcare, Nashville, USA, whose extensive experience added great value to the FDP.

The program was thoughtfully designed to deepen participants’ theoretical knowledge and enhance their practical skills in applying emerging AI technologies—particularly in the domain of **cancer research and treatment**. Mr. Thummarakoti elaborated on the architecture, applications, and advantages of **Agentic AI**, as well as the importance of **Explainable AI (XAI)**. He provided clear insights into XAI’s approaches, **LIME** and **SHAP**, and emphasized the significance of **PEGA** in streamlining and enhancing processes in medical research. The program successfully bridged theoretical foundations with real-world applications, making it a highly enriching experience for all participants.

FDP on Agentic AI and PEGA

PROFILE

- Prof. (Dr.) Satish Chander Sharma is the Pro Vice Chancellor at BBD University, Lucknow, with over 32 years of experience in teaching and administration.
- He has previously served as Director IQAC and Director (Approvals & Recognition) at SGT University, Gurugram, where he played a key role in securing NAAC A+ grade and UGC 12-B status.
- Dr. Sharma holds an M.A. in Applied Industrial Psychology, M.Phil in Organizational Behavior, MBA in HR, and a Ph.D. in Business Administration.
- He has held leadership positions at several prestigious institutions and contributed significantly to academic development.
- Prof. Sharma has authored 12 books, 10 book chapters, and over 60 research articles in reputed journals.
- He is actively involved with professional organizations such as AOM (USA), ISTD, and HRD Network.

PROFILE

- Dr. Praveen Kumar Shukla is currently serving as a Professor and Dean at the School of Engineering, Babu Banarasi Das University, Lucknow. He is also an Adjunct Faculty at the SAU Centre for Research and Innovative Learning (SCRIL), South Asian University, New Delhi.
- Dr. Shukla is also the executive committee member and Secretary of IEEE CIS UP Chapter.
- Dr. Shukla holds a Ph.D. in Computer Science & Engineering from Dr. A.P.J. Abdul Kalam Technical University, Lucknow. He also holds M.Tech in Computer Science & Engineering and B.Tech. in Information Technology.
- His research areas include Fuzzy Systems, Machine Learning, Computer Vision and Deep Learning.
- He has published more than 60 Papers in reputed International Conferences and International Journals.
- He has worked as the general chair of the "International Conference on Computer Vision and Robotics" and Conference Chair of the "International Conference of Undergraduate Students" (ICUS).

PROFILE

- Mr. Sairohith T. is a seasoned IT professional with over a decade of experience specializing in healthcare technology, cloud computing, and enterprise application modernization.
- He currently serves as a Consultant Application Engineer at HCA Healthcare, where he leads the development and enhancement of mission-critical applications, including oncology care systems and vaccine tracking platforms used by thousands of healthcare professionals across the U.S.
- He has authored multiple technical books, including "Pega Cloud 3 Modern Enterprise Solutions Guide" and "The AI Cloud Infrastructure Blueprint" and published over 20 research papers in IEEE, Springer, and leading journals.
- He actively contributes to academia as a guest lecturer, research mentor, and Board of Studies member, and holds editorial and reviewer roles with several international journals.
- Mr. Sairohith is also the Chair of the IEEE Computer Society Chapter (Columbia Section) and a Fellow Member of SCRS.
- His current work focuses on leveraging AI, cloud, and low-code platforms to improve efficiency, scalability, and patient outcomes in healthcare systems.

AGENTIC AI vs TRADITIONAL AI

Autonomous, adaptable, and able to take decisions	Follow predefined rules
Independent, adaptable based on real-time data	Fixed programming and external inputs
Continuous learning & evolving	Limited by the trained data
Proactive and interactive	Reactive
Mostly autonomous	Manual oversight required
Dynamic content delivery	Static content delivery

Brief Description of Event:

The AI Research Centre, School of Engineering, BBD University, conducted the event-AI Vimarsh: A Global Series of Intellectual Dialogues on the Future of AI- Episode 1 on June 26, 2025. This program brought together leading minds from academia to explore the evolving landscape of artificial intelligence and its future. This session offered deep insights, hands-on learning, and inspiring discussions for all the participants.

The sessions were led by **Dr. Shokooh Khandan** and **Dr. Sandeep Singh Sengar**, academic professionals from The Manchester Metropolitan University and Cardiff Metropolitan- UK respectively, whose extensive experience added great value to the discussion.

The program was thoughtfully designed to deepen participants' theoretical knowledge and enhance their practical skills in applying emerging AI technologies—particularly in the domain of higher education and research.
